

## Over & Out

Ash

Strike a blow, start the show  
Ripping up the rule book, here I go  
Voice of doom from the tomb  
Bringing up the bad vibes in the room  
Right on cue, coming through  
Careful, all you wish for may come true  
Every lie that you try  
Each of your mistakes will never fly  
Every strategy you can't deny  
All consigned to history

Well come on  
Your intentions were never in doubt  
It doesn't matter to me now I'm over and out

Fake or true, see right through  
Every step I'm miles ahead of you  
First to crack, lose your track  
You can't trust yourself so watch your back  
Slave to hate, it's your fate  
No surprise, you always take the bait  
Off your game, crying shame  
As your fantasy goes up in flames  
You've had all your fifteen minutes fame  
Burning up your majesty

Well come on  
Your intentions were never in doubt  
It doesn't matter to me now I'm over and out  
Ascendancy's what you're all about  
It doesn't mean a thing now I'm over and out

Now you're getting careless  
I've seen it all before  
You're just an everyday two faced liar  
Fighting a pissing war  
You're from a screwed up perspective  
So get on out of town  
You're following some sinister directive  
It's gonna bring you down, down, down

So come on  
Your intentions were never in doubt  
It doesn't matter to me now I'm over and out  
Ascendancy's what you're all about  
It doesn't mean a thing now I'm over and out  
Aw yeah  
It doesn't mean a thing now I'm over and out  
It doesn't mean a thing now I'm over and out
