Shutdown

Ash

Turn everything off, the moving parts come to a halt
I leave the work I've done and walk away
Conditions have been balanced in your favor far too long
It's time for you to hear the words I say

Shutdown, the system isn't right
Slow down, there's gonna be a fight
Shut it down, thank you and good night

Once there was a time when I would listen to your lies
But now I recognize what's going on
Never been to fight and now you need me on your side
Only realized now it is gone

Shutdown, the system isn't right
Slow down, there's gonna be a fight
Shut it down, thank you and good night

Shutdown, put the system right
Slow down, there's gonna be a fight
Shut it down, thank you and good night
Shut it down, thank you and good night
