Somersault

Ash

It is no one else's fault
I got what I want
Pull a backward somersault
I get what I want

I'm here just for the ride
Shooting the breeze
Not taking any side
I do as I please

Straight ahead, no reminiscing
Kissing me there's something missing

Letting go all these dreams
Feels so good to be free
Free [?] fear

That's the way I want
That's the way I want
That's the way I want
That's the way I wanna be

I'll be your guiding light
I do what I want
Just keep me in your sight
I do what I want

Don't need much to get by
Riding the breeze
No reason to comply
I do as I please

Straight ahead, no reminiscing
Kissing me there's something missing

Letting go all these dreams
Feels so good to be free
Sailing the stratosphere
Feels so good to be queer
When you got a [?]
Baby [?] fear
I can feel the time is near

That's the way I want
That's the way I want
That's the way I want
That's the way I wanna be

That's the way I want
That's the way I want
That's the way I want
That's the place I wanna be
