

## There Is Hope Again

Ash

You've blown your final chance  
Lost your confidence  
Your self-belief has failed  
Let you down again  
Oh now you have nothing left to lose  
Watching your dream die  
No more strength to fight  
Bombardment of your mind  
It hits you from all sides  
Where's the light that heralds a new dawn

Don't give up  
Your time will come at last  
Destiny will make sense of the past  
There is hope again

Weathering the storm  
A thousand miles from shore  
Struggling with your past  
Too young to understand  
There must be a balance  
There's still time

Don't give up  
Your time will come at last  
Destiny will make sense of the past  
There is hope again  
There is hope again
