

# Count

Ashanti

Speed it up and get it back  
Make it count where it at  
Leave it up every time  
Can you handle it? Can you handle it?

Baby, don't make me  
Count, count, count, count, count, count, count, count, count your money  
Baby, don't make me  
Count, count, count, count, count, count, count, count, count your money

Take me to your island, let me see the rain, waters, sun now  
You sweating, put your gun down  
If I call you Caesar you gotta be Caesar just one time  
I'll please you if you spoil mine  
Drink up, only drink up  
All walking funny, the hell is in that cup?  
Oh, I'm feeling bad the way we're waking up  
A couple more glasses and you gon' get a pass at this

Speed it up and get it back  
Make it count where it at  
Leave it up every time  
Can you handle it? Can you handle it?

Baby, don't make me  
Count, count, count, count, count, count, count, count, count your money  
Baby, don't make me  
Count, count, count, count, count, count, count, count, count your money

Dollars ain't nothin', bottles ain't nothin'  
If you see something, push up all the buttons  
Oh baby, go bigger, baby, keep it jumpin'  
Pop a couple more and you'll get access to this lovin'  
Oh baby, drink up, only drink up  
Ooh, I got the feeling, oh, that's just your luck  
Show me how you roll, I ain't looking for love  
First I said "be easy", now I'm saying "get rough"  
Oh baby, spend it all

Speed it up and get it back  
Make it count where it at  
Leave it up every time  
Can you handle it? Can you handle it?

Baby, don't make me  
Count, count, count, count, count, count, count, count, count your money  
Baby, don't make me  
Count, count, count, count, count, count, count, count, count your money

Don't make me count that money  
If you spending like you saying then lay it out in front of me, yeah  
He gon' hustle 'til he die  
Yeah, he just my type  
G5 through the sky

Baby, don't make me  
Count, count, count, count, count, count, count, count, count your money

Baby, don't make me

Count, count, count, count, count, count, count, count, count your money
