

Emotional

Ashe

I don't wanna run you over
Heavy on the gas
I'm a million miles an hour
And I'm never coming last
Hey, hey hey

Saw you in the distance
There was something in the room
Could've of been the music
Or could've been the moon
Hey, hey hey

No we
Don't
Have
To get emotional

No we (we)
Don't (don't)
Have (have)
To get emotional

You'll never love somebody like me
You'll never love somebody like me
You'll never love
You'll never love
You'll never love somebody like me

You'll never love somebody like me
And you could be somebody I need
You'll never love
You'll never love
You'll never love somebody like me

You don't have to stay the night
Only if you want
I'm a little dark side
I'm a little fun
Hey, hey hey

Used to like the drama
Baby I don't anymore
If you got some trouble
Baby leave it at the door
Hey, hey hey

(Ooh-ooh)
No we (we)
Don't (don't)
Have (have)
To get emotional

You'll never love somebody like me
You'll never love somebody like me
You'll never love
You'll never love
You'll never love somebody like me

You'll never love somebody like me
And you could be somebody I need
You'll never love
You'll never love
You'll never love somebody like me

You'll never love somebody like me
You'll never love somebody like me
You'll never love
You'll never love
You'll never love somebody like me

You'll never love somebody like me
And you could be somebody I need
You'll never love
You'll never love
You'll never love somebody like me
