

# Love You Need

Ashe

When your nerves are shot  
I could be a steady hand  
When you need to talk  
I'll pick up the phone  
Don't wanna say a word  
Promise I will understand  
When you need your space  
I could let you go

If it's staying up late  
Or letting you sleep  
No, I'll never let you down  
If it's holding you close  
Or setting you free  
Don't make up your mind right now  
You were never one to go beyond the shadow of a doubt  
But if you choose me  
I'll give you all the love you need

I can't promise you  
That I got it figured out  
When you're feeling tired  
I could be your home  
If you ever change  
I could come along with you  
I'd go anywhere  
That you wanna go

If it's staying up late  
Or letting you sleep  
No, I'll never let you down  
If it's holding you close  
Or setting you free  
Don't make up your mind right now  
You were never one to go beyond the shadow of a doubt  
But if you choose me  
I'll give you all the love you need

Though it's hard to know  
Exactly what the future holds  
I could see us old  
Walking in the park  
If you let me yeah  
I could give it all to you  
Baby 'til forever falls apart

If it's staying up late  
Or letting you sleep  
No I'll never let you down  
If it's holding you close  
Or setting you free  
Don't make up your mind right now  
You were never one to go beyond the shadow of a doubt  
But if you choose me  
I'll give you all the love you need
