

# We Get High

Ashe

Hey  
Sit back, watch how I let, I let it roll off, yeah  
Days go bad, that's just how they get  
Now add them all up, yeah

Feel good now, chin up and move by  
Sometimes is nothing right  
So when we get low  
Woah, we get high  
And we don't know how it goes  
No one at our show  
Our money's been getting tight  
But when we get low  
Woah, we get high, ha-ha-ha

I'm looking for the light at the end of the night  
I light a match and watch it all burn down  
Can't always be a good one  
Everyone knows one  
Where everything start going south, yeah

Feel good now, chin up and move by  
Sometimes is nothing right  
So when we get low  
Woah, we get high  
And we don't know how it goes  
No one at our show  
Our money's been getting tight  
But when we get low  
Woah, we get high, ha-ha-ha

Sit back, watch how I let, I let it roll off, yeah  
Days go bad, that's just how they get  
Now add them all up, yeah  
Feel good now, chin up and move by  
Sometimes is nothing right  
So when we get low  
Woah, we get high  
And we get high  
And we get high, oh-oh-oh  
We get high  
And we get high, we get  
Woah, we get high, ha-ha-ha

Haha, skrr
