

As she falls another time under the summer rain
(She need to find her aim)
A victim of her gift she never really lived
Now she's trying to forget
The time she felt the necessity to show the cross she bears
(But no one really cared)
Betraying her innocence she hopes to be blind
When the world will start to scream

What's ahead I don't know
Is she real the truth be told?
Watch the worlds fall

Oh Cassandra
Where do you want to go?
Oh Cassandra
You hide the truth that we soon will know
Oh Cassandra
Your silence is frightening, believe me
Oh Cassandra
To heed your words

Fools never hear the truth
Laid out for them
Worlds are crashing to the ground by the hands of men

Oh Cassandra
Where do you want to go?
Oh Cassandra
You hide the truth that we soon will know
Oh Cassandra
Your silence is frightening, believe me
Oh Cassandra
To heed your words
Oh Cassandra
Where do you want to go?
Oh Cassandra
You hide the truth that we soon will know
Oh Cassandra
Your silence is frightening, believe me
Oh Cassandra
To heed your words
