

Flip The Switch

Asher Angel

Say you got options take your pick
Ain't nobody head to toe like this
I flip the switch
Imma give you something you can't resist
Don't know how it turned out this way
Starting to feel like everyday
I flip the switch
Imma give you something you can't resist

Wake up, put on some fly shit
Drop top paint matching my fit
Buss down my Rollie can't miss
I'm up now so high you can't miss me
I'll spend it run it up with no limit
Sharpshooter give me any target I hit it
Next up put me in a game I won't quit
Won't freeze even though I'm so cold

Everything I do is intentional
Double down imma let 'em know
Go let 'em know
You can't ignore

Say you got options take your pick
Ain't nobody head to toe like this
I flip the switch
Imma give you something you can't resist
Don't know how it turned out this way
Starting to feel like everyday
I flip the switch
Imma give you something you can't resist

I'm charged up on ten
Ain't to many problems over here nah
Had to take it off safety
Big dog out the cage moving freely
Cuz I'm one of one
The way I run it up you would think I'm on the run
Fly her out to London just to have a little fun
Fly her out to London just to have a little fun

Everything I do is intentional
Double down imma let 'em know
Go let 'em know
You can't ignore

Say you got options take your pick
Ain't nobody head to toe like this
I flip the switch
Imma give you something you can't resist
Don't know how it turned out this way
Starting to feel like everyday
I flip the switch
Imma give you something you can't resist

(Fly her out to London just to have a little fun)
