

Interlude 2

Asher Angel

Let's take it back to where all started
The first song I ever put out
It was in the early 2018 and I was so excited to release a single on my own
We didn't have a record label back then
And we filmed the video at the Peppermint club in L.A. on a Sunday with like a 6 A.M. cold time
And it was a throwback of yesteryear with dancers and moonlighting
And the video premiered on MTV and to this day it's still one of my favorites
So because the music on this mixtape is all from that time period
We decided to make a special version, [?] at least remixed it
This is "Chemistry"
