

Love Drunk

Asher Angel

I could be sober rather be love drunk
By the end of the night we leaving fucked up
Girl, you're mans not here you should loosen up love
I'm just saying let's not play it safe

How do I get you
Get you back to my place
Wearing all see-through
Body looking hello tasty
Oou, let me fill your cup
Don't let it spill sip it up
I want to get tipsy off your touch
Let your hair down don't think too much

I could be sober rather be love drunk
By the end of the night we leaving fucked up
Girl, you're mans not here you should loosen up love
I'm just saying let's not play it safe

Take it off
Break it down
Let it ride
Let me see you
Take it off
Break it down
Let it ride
Let me see you

See that you tryna tempt me
Wanna try something risky
Show me you can drive it hands free
Woah...

Oou, let me fill your cup
Don't let it spill sip it up
I want to get tipsy off your touch
Let your hair down don't think too much

I could be sober rather be love drunk
By the end of the night we leaving fucked up
Girl, you're mans not here you should loosen up love
I'm just saying let's not play it safe

Take it off
Break it down
Let it ride
Let me see you
Take it off
Break it down
Let it ride
Let me see you
