

# Again

Asher Monroe

Yeah

How far will you go for love?

I can't explain but somehow our love got away  
And I know, I can't change, what we been through, but I can say  
Oh, what a joy to see, someone like you right next to me  
But you know, I am a man, so I messed up once again

Round and round we go, in and out of my life  
But nothing's too far to go, to make things right with you, oh-oh-oh-oh

I know we broke up a thousand times  
And every time that it's over I ask for one more try  
How can I make you understand?  
No matter how many times we end  
I'll do it all over again

(Over again) I'll do it all over again

(Over again) I'll do it all over again

Get back together, we fall back in love  
I say I won't do it again but that ain't enough  
You tell me to prove it, and I try to show  
Then we start fighting again and I gotta go

I'm not making excuses but that's how it goes  
And I'ma come running back to you and everybody knows

Round and round we go, in and out of my life  
But nothing's too far to go, to make things right with you, oh-oh-oh-oh

I know we broke up a thousand times  
And every time that it's over I ask for one more try  
How can I make you understand?  
No matter how many times we end  
I'll do it all over again

(Over again) I'll do it all over again

(Over again) I'll do it all over again

How far will you go for love? (Let's do it all over again)  
Oh-whoa-oh  
How far will you go for love? (let's do it all over again)  
Yeah-yeah, yeah-yeah, yeah-yeah (let's do it all over again)  
How far will you go for love?

I know we broke up a thousand times  
And every time that it's over I ask for one more try  
How can I make you understand?  
No matter how many times we end  
I'll do it all over again

(Over again) I'll do it all over again

(Over again) I'll do it all over again
