

## Back For More

Asher Monroe

It feels like an obsession  
The way you make my hear beat so you don't even know  
The moment that you came in dancing  
Caught my eye I I can't ever let you go

Why am I loosing all control  
You got a hold of me hold of me  
Can't get away you pull me close  
C-C-Caught up in your gravity

Now look what you started, soon as you walked in  
It feels like a party, and the night won't end  
Cause Cause you keep me coming coming back back for more  
Cause you keep me coming coming back back for more

And baby you got it, turn the whole club out  
And you know you got it, and we can't stop now  
Cause Cause you keep me coming coming back back for more  
Cause you keep me coming coming back back for more

Cause Ester and Holly are your biggest fans  
And we are gonna sing it any way we can  
Cause Cause you keep them coming coming back back for more  
And we'll keep you coming coming back back fo sho

Now look what you started, got us into this mess  
We hope that you like it and we're here to impress  
Cause Cause you keep them coming coming back back for more  
And we'll keep you coming coming back back fo sho
