

Forever

Asher Monroe

Wish I could ask you to love me?
Wish loving you wasn't hard?
Wish I could make you believe that
The grass is greener in my yard?
Wish I could have you for the long run
And you'll come around before I'm done
If you never see me like
I see you, baby
I'll be lonely forever
Forever
Be lonely forever
Forever
I will be lonely forever
For every time that I wonder
If loving you wasn't smart
I'll have you tell me you love me
Girl, when you led me in your heart

And If I ever find a way
I loved this hopeless dark
I won't hesitate to say
that you should have love me from the start
Lonely forever
Forever
Be lonely forever
Forever
I will be lonely forever
Forever
Forever
All because of you, baby
Because of you, baby
I'll be lonely
I will be lonely (lonely forever)
Forever
Be lonely forever
Forever
I will be lonely forever
I will be lonely forever
