

# Memory

Asher Monroe

[Asher Monroe:]

For all of those moments  
The good times and love we share  
It's been more than a memory  
It's been more than a memory  
For all of the breakups, and makeups  
For the lovers everywhere  
It's been more than a memory  
It's been more than a memory

I wanna be there for ya, be there for ya  
Be with you tonight girl  
Let me hold ya, hold ya, let me hold ya  
We can share this all night  
The world's yours, I'm on your side

For all of those moments  
The good times and love we share  
It's been more than a memory  
It's been more than a memory  
For all of the breakups, and makeups  
For the lovers everywhere  
It's been more than a memory  
It's been more than a memory

[Chris Brown:]

Everyone in the whole world  
Is searching for someone to share  
A love we have between our hearts  
And in my eyes no one compares

Watch them stand by watching us  
But we got our eyes closed  
Seein' love through darkness  
Yeah, I wanna

[Asher Monroe & Chris Brown:]

I wanna be there for ya, be there for ya  
(Be there, be there, be there)  
Be with you tonight girl  
(Be there, be there, be there)  
Let me hold ya, hold ya, let me hold ya  
We can share this all night  
The world's yours, I'm on your side

[Asher Monroe:]

For all of those moments  
The good times and love we share  
It's been more than a memory  
It's been more than a memory  
For all of the breakups, and makeups  
For the lovers everywhere  
It's been more than a memory  
It's been more than a memory

Come on let's party  
Put 'em hands all on your body

We ain't gotta tell nobody  
Oh-oh, oh-oh, right now

Non-stop, tell me when they go  
It's a party, gonna lose control  
Got you high, don't need your clothes  
I'm lost girl

For all of those moments  
The good times and love we share  
It's been more than a memory  
It's been more than a memory  
For all of the breakups, and makeups  
For the lovers everywhere  
It's been more than a memory  
It's been more than a memory
