

Right Away

Asher Monroe

Yesterday was dark
But today is you
I know you're wondering when love starts
But to tell you the truth

I would say I would say
Right away I was in love
Right away
If I die today I was in love
By the way
Were alive that's reason enough
Girl to fall in love

Right away
Right away
Right away
Right away
Right away
Right away

I was fine on my own
But now you're necessary
And I met you in the friend zone
But now I'm down to get...
It's scary but I would say

Right away I was in love
Right away
If I die today I was in love
By the way
Were alive that's reason enough
Girl to fall in love

Right away
Right away
Right away
Right away
Right away
Right away

You had me from the start
Don't ever break my heart
I hope we last forever
And never grow apart
You shot down from the sky
Like a falling star, I had no choice but to catch you
Keep you safe in my arms

Right away
Right away
Right away
Right away
Right away
Right away...
