

Sail On

Asher Monroe

The world's a wounded heart
It beats, beats, beats
In my chest, when we're apart
Your sun upon me, candle in the dark
It brings peace, peace, peace
As I look up at the stars
I hope you see me as I see a long brother
You got my weight
I can hear you calling
Calling out my name
And oh, how I missed you
But I still found my way
You blessed me with the calling
To heal this world with all my pain

The world's a wounded heart
It beats, beats, beats
In my chest, when we're apart
Your sun upon me, candle in the dark
It brings peace, peace, peace
As I look up in the stars
I hope you see me as I see a long brother
You got my weight
I can hear you calling
Calling out my name
And oh, how I missed you
But I still found my way
You blessed me with the calling
To heal this world with all my pain
