

## Actions & Misdeeds

Asher Roth

Bad news abound  
The students gather to discuss their options  
Is the world of abundance out of reach?

Um guys, did you get the professor's message?  
About him cancelling class? Yeah, I won't stress it  
But indefinitely? I mean I just wonder why  
I don't know, he probably realized nobody really cared  
Guys, I got this feeling, I'm just hoping that I'm wrong  
I gotta get down to the greenhouse, y'all tagging along?  
Of course I'm down, let's get going on the way  
I mean did something happen?  
Um, well, no one's gonna say?  
Fine, I-hey, wait up!

(Yo, no way)  
What the-what's happened here?  
This place looks like it got ransacked by a wild bear  
Without being specific I heard a plot so delirious  
But never imagined they could possibly be serious  
Uh, hey guys, just to clarify the eeriness  
The erroneous jabroni part of me just tweaked and schemed to turn the house  
for profit  
Story short the federales peeped and swepted  
Now I'm not all that's outta pocket  
Wait, you did all this and left with no bread?  
You must have a lot of rocks rattling in your head  
I know, I know, messed up but have revelations  
It was late with registration, need this class for graduation  
Hey, what was the plan here? You kidding me?  
That's the reason they tell people "Never shit where you eat"  
And the fact that you standing here with no bud and no infraction  
Got me guessing how much yapping you done did in the interaction with the po  
lice officer  
(Let me explain, man) Time out, I ain't finished  
And where your boy at? Surely there was an accomplice or a witness  
'Cause it was more than one person, right?  
Okay, okay, relax, I think there might be something that can save the semest  
er  
Maybe we can start our own grow-op with these plants as ancestors  
You know Pow, well that make sense to me  
So let's see if the professor has got what we need  
Yeah, yeah, let's go, I swear I'll make up for my actions and misdeeds  
You know what, I think I'm getting it now 'cause it's bigger than me  
I thought most of professor's words were a figure of speech  
But he was hitting us with gems and growing magic  
And the way it makes y'all happy, then this class, we gotta have it  
And I'm glad that you finally understand  
But this grow as we know, well it could be out of hands and  
You know, I just feel a bit rattled  
But there's on thing on my mind, what about that bad apple?

Man, this isn't looking good  
Come on, Prof, pick up the phone  
Just pick it up, come on pick it up, pick it up  
Hello, no one is available to take your call
