Get Out

Asher Roth

It seems like city girls don't smile
I ain't seen the stars shine in awhile
Sick of all the concrete in the backyard
Like it when the parking isn't that hard
It seems like city girls don't smile
I ain't seen the stars shine in awhile
Sick of all the concrete in the backyard
Like it when the parking isn't that hard
Maybe 'cause the high rise blocks the sunshine
Maybe 'cause my dollars turn to cents
We just want to take off all our clothes sometimes
But there's nowhere close to swim

I might need to get out of the city
I might need to get out of the city
I've been here for way too long, way too long
Don't wanna wait too long, wait too long
I might need to get out of the city
I might need to get out of the city
I've been here for way too long, way too long
Don't wanna wait too long, wait too long

Roll me up a cigarette
Light me up a fire
We don't need no internet
We gon' be here for awhile
Wanna see the sunrise and the sunset
Don't mind a little bit of rain
Just need some time to reset
Take a break from everything

I might need to get out of the city
I might need to get out of the city
I've been here for way too long, way too long
Don't wanna wait too long, wait too long
I might need to get out of the city
I might need to get out of the city
I've been here for way too long, way too long
Don't wanna wait too long, wait too long
