

Woo  
Woop, woo

Yeah, time travelin', mind ravelin', unravelin'  
I 'magine, I'm dazzlin', I'm tasked with makin' sense of this mess  
I confess, I've no idea were we're headed  
But instead of gettin' all up in my head and so embedded, dreaded  
Everything that's ever been, jettied, just forget it  
Never let it get the best of me, effort so pathetic  
Gotta shed the skin that get us here  
Pessimistic, better year  
Fetish with the yester year  
Generation extra fear  
Metal Gear Solid modelty  
Most Goddess believe in the false prophets, leavin' it all behind us  
Free from all the gossip (Woo), feelin' like God got his way

Spaceship, take me all the way to you  
Take me away from all the bullshit, baby

Uh  
Weed rollin', weed smokin', remote controllin'  
Real life, rollercoaster and overdosin' of off somethin'  
Potent in front the lil' homies  
Maintain and maintaining, OG's gangbangin'  
Dope slangin', money makin', niggas hatin'  
Pants saggin', Buddy is the name, same nigga since MySpace  
Swagger jackin' actors always yappin' out the mouth  
I get it crackin', got the money flippin', acrobatics  
Okay, first thing first I repeat, I repeat  
Homie, these niggas don't want it, I said these niggas don't want it  
You ain't snitch your homie, please, show me, my opponent  
These women all up on the D, baby fallin' on her knees  
Jesus, help me please, I been spittin' out the pollen seeds  
Coppin' tees, poppin' collars, bitch, not a politician  
Had a dream, Donald Trump finally got impeached  
But they still won't let a nigga get a piece  
Uh, still two-steppin', stay pimpin', drank sippin'  
Lane switchin', day trippin', shit's mind-bogglin'  
Drive fast cars feels like time travelin' (Time travelin')  
Yeah, lightspeed, no gravity

Spaceship, take me all the way to you  
Take me away from all the bullshit, baby

Wait
