

## The Other Side

Asher Roth

Hey y'all, stop on a dime, it's my time  
All these dope boys, y'all make it easy to find crime  
Coulda let you go off easy, now there's a short leash  
Your woke teacher failed, now I'm confiscating your whole dream

Not so fast, just give us back the hash  
No need for all the hassle, plus the kids need their class

Heh pass, this the last time I ask for the dope  
I'ma stack all this hash and turn that pack into gold  
So, don't even trip, your moral compass is off  
Free flowers don't hold powers, it's the funds that it spawn  
Y'all pawns to fairytales, I'm tryna get me some bread  
Y'all ain't worthy to grow this so I'ma take it instead

See there's something that you're missing, something that you n  
ever learned  
A message from the mother because you are more concerned  
With power and the money, all the stuff you could accrue  
These students half your age but twice as wise as you

All the wiser, you know I know that this hash magic  
I took a drag and that gas, made me an asthmatic  
Saw a portal, I felt immortal and passed through  
And saw what you kids been hiding up in that green room  
But came to, woke up, remembered that faint hue  
That hash you calling retro just brought me back to this damn s  
chool

Hey Mr. Officer yo, I'm not sure if you know  
But I know you'll let me hold some of the red dro  
I rolled it up before I poured up, situation had me stressing  
Now with all your lecturing it really made my lesson set in

No question, let's get him  
Well fuck it, y'all boys, let's go  
Pow it's all you, hit that shit bro  
Man I don't know, I'm feeling nervous  
Don't be sweating now, do it  
You know that you got this  
Yeah andiamo Pow!  
What if the portal won't open?  
I don't know what you so anxious for  
We're standing here waiting, hit that shit now!  
Well there's only one way to save this planet and make it right  
Well here it goes, I guess I'll see y'all on the other side
