

Destitution

Ashers

When your life seems ripped apart
What's left take a deep look inside yourself
In misery, a haze, drown in sorrow
Live your life like there's no tomorrow
At a point you come to terms with why
There is truth in a world full of lies
So much went wrong and you're desensitized
They lost hope, not you, flames they burn inside you

This is all I ever wanted
Passion for destitution

From the bottom up to the top
You realize, this is all you got
God help the ones injecting poison
My ears are bleeding from what's so annoying
And soon it will all be lost
Your life crashes to a fatal halt
Smoke clears, what's left is mass destruction
Sometimes life can be so deceiving

This is all i ever wanted
Passion for destitution
Stoke the fire
That burns your life away

I wanna take another chance
I've seen it all first hand
More bills, no hope, no life, no fun..
I wanna take another chance
I've seen it all first hand
What else is there anyway?

Welcome to your future
Trapped inside your past
This isn't the first time
It wont be the last
Cut loose free from the shadows
Leave it all behind
Life is what you make it
Seize what you want
