

## Crazy

Ashford & Simpson

It's crazy  
I've never seen you before tonight  
Crazy, 'cause something tells me give in, don't fight  
It's crazy  
I feel a rush coming over me  
It's just crazy  
Not in my wildest dream could this be

Say it to me  
Say it right now  
That we both know this is not allowed  
Gee wiz  
What's the sense in stopping it

It's crazy  
I'm out of sync  
And I can't think no more  
It's crazy  
It's never happened quite like this before  
It's crazy  
But to me it's not just an experience  
It's crazy  
'Cause only once comes this chance

Say it to me  
Say it right now  
That you and me are gonna make it somehow  
Gee wiz  
What's the sense in stopping it

It's crazy, honey, it's crazy  
You know it, I know it  
Everybody will agree  
This is not living in reality  
It's crazy, honey, it's crazy  
You know it, I know it  
Everybody will agree  
You can choose to be free  
Or stay with me and be crazy
