

I Need Your Light

Ashford & Simpson

I need Your light
I need Your light
I need Your light with Mine

Chorus:

If we let nothing get in our way
We can make it to a brighter day

Repeat Chorus

But I need Your light
I need Your light, I need Your light

There's always someone trying to separate us
We got to work hard to keep faith and trust
We give up the moment
We should begin
When happiness could be just around the bend

There's always someone trying to separate us
We got to work hard to keep faith and trust
We give up the moment
We should begin
When happiness could be just around the bend

Repeat Chorus

So let's come together right now
And make everything, everything, everything all right
I need Your light
