

It's A Rush

Ashford & Simpson

They say night time is fun
But that's only when you got someone
Try to show yourself friendly and nice
Look at you with eyes as cold as ice

Almost time to go home
Even after you've danced all night long
You're so lonely
You need love only

It's a rush
To find someone before the sun comes up
To find someone before the beat is gone
Don't wanna leave all alone
Everybody scrambled to the floor once more

It's a rush
To find someone before the sun comes up
To find someone before the beat is gone
Don't wanna leave all alone

Look around the crowded room
Somethings gotta happen soon
Feel you're gonna be lucky tonight
Steps are down and you're looking right
You've been playing by the rules
Now its time for you to make that move
You've waited long enough
And now you need love
You need love

It's a rush
To find someone before the sun comes up
To find someone before the beat is gone
Don't wanna leave all alone
Everybody scrambled to the floor once more

It's a rush
To find someone before the sun comes up
To find someone before the beat is gone
Don't wanna leave all alone

Almost time to go home
Even after you've danced all night long
You're so lonely
You need love only

It's a rush
To find someone before the sun comes up
To find someone before the beat is gone
Don't wanna leave all alone
Everybody scrambled to the floor once more

It's a rush
To find someone before the sun comes up
To find someone before the beat is gone (got to go)
Don't wanna leave all alone

Everybody scrambled to the floor once more

It's a rush
To find someone before the sun comes up
To find someone before the beat is gone
Don't wanna leave all alone
Everybody scrambled to the floor once more

It's a rush
To find someone before the sun comes up
To find someone before the beat is gone
Don't wanna leave all alone
