Let Love Use Me

Ashford & Simpson

I tried to leave so many times
And the thought would just die in my mind
I visualized how it would be
Regret would come haunting me
Don't ever think that I'd be a fool in love one more
To abandon the ship when things get rough, baby

I've given up hope trying luck
I might as well go and let love use me
That's what I'm here for
Gonna let love use me, I can fight it no more

How long we stood on shaking ground
But with you I feel safe and sound
I've had my share of crosses to bear
Circles that reach to nowhere
For this I promise to be faithful
Cherish all you give and be grateful, baby

I've given up hope trying luck
I might as well go and let love use me
That's what I'm here for
Gonna let love use me, looking back no more

For this I promise to be faithful
Cherish all you give and be grateful

I've given up hope trying luck
I might as well go and let love use me
That's what I'm here for
I'm gonna let love use me
Ain't looking back no more

Gonna let love use me, it's all I have now
Gonna let love use me, yes, I am
We're gonna make it so right
Gonna let love use me, all the way
This time gonna talk about it
Gonna let love use me
