

## In Between

Ashland Craft

You never come home with flowers just because  
And you never call me unless I call you first  
We don't talk about forever, like we used to do  
It ain't fair to me, and it ain't fair to you

All this push and pulling, we ain't getting nowhere  
You're lying next to me, but you ain't really there  
Why am I scared to be lonely, but lonely is all I feel, oh  
We don't wanna stay, but we're too scared to leave  
We're stuck in this in between

We talk, but we don't have a conversation  
You say you hear me, but you don't ever really listen  
Oh, you stay because it's easy, but I don't want to be convenient  
Love me or leave me, you just gotta choose

'Cause all this push and pulling, we ain't getting nowhere  
You're lying next to me, but you ain't really there  
Why am I scared to be lonely, but lonely is all I feel, oh  
We don't wanna stay, but we're too scared to leave  
Oh, we're stuck in this in between  
Stuck in this in between

Oh, just enough ain't good enough  
We're spinning wheels on worn out love  
Baby, this goodbye is overdue

All this push and pulling, we ain't getting nowhere  
You're lying next to me, but you ain't really there  
Why am I scared to be lonely, but lonely is all I feel, oh  
We don't wanna stay, but we're too scared to leave, oh  
Don't wanna walk away, but baby I can't be  
Stuck in this in between  
Hmm, stuck in this in between
