

Closer

Ashland

They say you'll know when you see her
She's got a way of pulling you in
She's got the face of an angel
But her lips are painted in blood red sin

Darling, just a little closer
She's gonna make you taste the poison
She's gonna take you out
Darling, just a little closer

They say her heart was broken
Now there's only ice inside her soul
She gave it up for revenge
Just to seduce you and swallow you whole

Darling, just a little closer
She's gonna make you taste the poison
She's gonna take you out
Darling, just a little closer

Don't you lean into that kiss
Don't you know it's a trick?
Don't you lean into that kiss
Don't you know it's a trick?

Don't you lean into that kiss
Don't you know it's a trick?
Don't you lean into that kiss
Don't you know it's a trick?

Darling, just a little closer
She's gonna make you taste the poison
She's gonna take you out
Darling, just a little closer

Don't you lean into that kiss
Don't you know it's a trick?
Don't you lean into that kiss
Don't you know, don't you know?

Don't you lean into that kiss
Don't you know it's a trick?
Don't you lean into that kiss
She's gonna kill you now
