

Keep Moving

Ashland

I can feel the earth quake beneath my feet
As my world falls apart around me
I know that it's coming to an end
But I gotta keep moving until then
This battle is a matter of life and death
There isn't any time to catch my breath
When the clouds turn black and they're rolling in
I gotta keep moving with them

Ooh ooh I gotta keep moving I gotta keep moving
Ooh ooh I gotta keep moving I gotta keep moving

Let me fly, let me breathe
Let me rise above it all no gravity
Let me fly, let me breathe
Let me rise above it all no gravity

The bottom's not shallow as we hope it to be
I know it cause I hit it and I'm in too deep
Sometimes I wish I could take the easy way out
But my will to live is stronger than all of my doubt

Ooh Ooh I gotta keep moving I gotta keep moving
Ooh Ooh I gotta keep moving I gotta keep moving

Let me fly, let me breathe
Let me rise above it all no gravity
Let me fly, let me breathe
Let me rise above it all no gravity

When I feel, when I feel lost
When all hope, when all hope's gone
When I feel, when I feel lost
I'll keep moving
When I feel, when I feel lost
When all hope, when all hope's gone
When I feel, when I feel lost
I'll keep moving
When I feel, when I feel lost
When all hope, when all hope's gone
When I feel, when I feel lost
Rise above it all no gravity
Let me fly, let me breathe
Let me rise above it all no gravity
