

Lights Out

Ashland

Come now people one by one
It's no use don't bother trying to run
You were given long enough
To save yourself from destruction

Ooh ooh you must have known
Ooh ooh you must have known

When the lights go out and you are alone
Whoa-oh we are inside your bones
When the lights go out and you are alone
Whoa-oh whoa-oh welcome home

What do you have left to say
When all you've done you have done it vain
Oh whoa we are not the same
And we won't sit back and watch you waste

When the lights go out and you are alone
Whoa-oh we are inside your bones
When the lights go out and you are alone
Whoa-oh whoa-oh welcome home
Look in to the mirror tell me what do you see tell me what do you see
Look in to your soul and tell me do you believe tell me do you believe

Don't look back
You won't get away
Don't look back
Not even someday
Don't look back
You won't get away
Don't look back
You can't run away

Ooh ooh you must have known
Ooh ooh you must have known

When the lights go out and you are alone
Whoa-oh we are inside your bones
When the lights go out and you are alone
Whoa-oh whoa-oh welcome home
Look in to the mirror tell me what do you see tell me what do you see
Look in to your soul and tell me do you believe tell me do you believe
believe now
