

No Place

Ashland

What have I been doing
Always making excuses
I admit it's over due
Maybe I was hoping
I could go through the motions
And then someday soon

I could take a break, rejuvenate
Need to give my brain a holiday
Ooh I can't wait for a sweet escape, yeah

No place in the world to be
No shame, got nobody to please
No more deadlines under the palm trees
Just a good time in my own company

No place
No place

What am I still doing
Still busy doing nothing
Nothing for me, all for you
Can't get back time I've been losing
No agendas now I'm cruising
I'll see you all again someday soon

I could take a break, rejuvenate
Need to give my brain a holiday
Ooh I can't wait for a sweet escape, yeah

No place in the world to be
No shame, got nobody to please
No more deadlines under the palm trees
Just a good time in my own company

No place
No place

Going to a location
A grand view vacation
Remember what it's like to be young and free
Feeling brand new sensation
Deja vu vibration
Remember what it's like to be young and free

No place in the world to be
No shame, got nobody to please
No more deadlines under the palm trees
Just a good time in my own company

No place, no place
No place
No place
No place
