

Burning Up

Ashlee Simpson

Every time that you're walking by
I feel the vibe inside
There's something about the way you are that's giving me butter
flies
Maybe the planets have aligned
Maybe it's all in my mind
So let me just introduce myself before I get too shy
I've seen you in my dreams at night to you I fantasize
You caught my eye, you're just so fine
You caught my eye, you're just so fine
I'm burning
Up for you
I'm burning
Up for you
I see diamonds in the sky
Touch my hand and I can fly
All this is a mystery
So come on and dance with me
I can't believe it's 4 a.m.
Where did the time go
I could sit here for days and days just hanging with you alone
We got an instant history
Some supernatural chemistry
Can't you feel it, feel it ,oh
But I'm giving you my number now before this goes too far
It's getting really hot in here
And soon it will be hard to say goodnight
The times not right so say goodnight
Before I die
You make me feel
Like fire
Is this love or just desire
You make me feel
Like fire
Is this love or just desire
