

Catch Me When I Fall

Ashlee Simpson

Ami **G**
Is anybody out there
Ami **G**
Does anybody see
D **G** **E**
That when the lights are off something's killing me

Ami **G**
I know it seems like people care
Ami **G**
Cause they're always around me
D **G** **E**
But when the day is done and everybody runs
Ami C **G**
Who will be the one to save me from myself
Ami C **G**
Who will be the one who's there
D

And not ashamed to see me crawl
F **G** **Ami**
Who's gonna catch me when I fall
Ami **G**
When the show is over
And it's empty everywhere
It's hard to face going back alone
So I walk around the city
Anything, anything to clear my head
I've got nowhere to go nowhere but home

Who will be the one to save me from myself
Who will be the one who's there
And not ashamed to see me crawl
Who's gonna catch me when I fall

Ami **F**
It may seem I have everything
Ami **D**
But everything means nothing
Ami **F**
When the ride that you've been on

G
That you're coming off
Ami
Leaves you feeling lost

Ami **G**
Is anybody out there
Ami **G**
Does anybody see

D **G** **E**
That sometimes loneliness is a part of me
Ami C **G**
Who will be the one to save me from myself?
Who will be the one who's there
And not ashamed to see me crawl?
Who's gonna catch me when I fall?
Who's gonna catch me when I fall?
Who's gonna catch me when I fall
And not ashamed to see me crawl?

Who's gonna catch me when I fall?
