Ashlee Simpson

This little house that I made for myself
Keeps me occupied
Little house o' mine, little house o' mine
This little life that I made for myself
Keeps me satisfied
This little love is satisfied
All I need to satisfy me

Not always easy, but it's what we wanted
Swore myself to you when we started
Love, in fact your love is all I knew
All I want from you

Summer nights don't reflect the beauty I'm seeing
Winter time inside with the drinks that I'm choosing
We race in a place beyond the pain
Well, anytime I want, I'll go to ease my mind

This little love o' mine, mine
This little love o' mine, mine, mine, mine

This little house that I made for myself
Keeps me occupied
Little house o' mine, little house o' mine
