

I'm Out

Ashlee Simpson

Your face, I'm a mess
All I know is not enough
I can't deal with one-side love
all I know you're not in love
Love this place is haunted, the walls are staring back at me
loving the reason, my light's down on my

For all the city's screaming, I can't be here anymore
Now the lights are brighter, you're still dancing on the floor
Whoaho whoaho..ooh ooh
And I'm out

You're on a wild without me, can't you see, I'm not in love
I can't change, there's no blame yah I know we're not enough
Love this place is haunted, the walls are staring back at me
loving' the reason, my light's down on my

For all the city's screaming, I can't be here anymore
Now the lights are brighter, you're still dancing on the floor
Whoaho whoaho..ooh ooh
And I'm out

Everything is faded, my heart feels injaded
Your not here with me boy THIS IS WHAT IT IS SO..let go

For all the city's screaming, I can't be here anymore
Now the lights are brighter, you're still dancing on the floor
Whoaho whoaho..ooh ooh
And I'm out
