

## Phases

Ashlee Simpson

Love ain't the same without you  
Sad ain't the same without you  
House simply isn't home  
Been there so I would know

I could do this without you  
Why would I do this without you  
Can't read your expressions  
I learned to accept it

Cause we all go through phases  
And you couldn't live without it  
And I couldn't love without it  
Go through changes  
And you couldn't learn without it  
And we couldn't love without it

Things I tell you and you may not be ready  
Things I tell you that weigh on you too heavy  
Go through things and hopes the other waits  
Far from nothing  
If I stay by your ways

Cause we all go through phases  
And you couldn't live without it  
And I couldn't love without it  
Go through changes  
And you couldn't learn without it  
And we couldn't love without it

I won't, you won't  
Rain on our little parade  
Long as we promise to try  
Long as we promise to stay

I will, you will  
Promise to keep things this way  
Long as we promise we'll try  
Long as we promise we'll stay

Cause we all go through phases  
And you couldn't live without it  
And I couldn't love without it  
Go through changes  
You couldn't learn without it  
And we couldn't love without it

Cause we all go through phases  
And you couldn't live without it  
And I couldn't love without you  
Go through changes  
You couldn't learn without it  
And we couldn't love without you

I won't, you won't  
Rain on our little parade  
Long as we promise to try

Long as we promise to stay

I will, you will  
Promise to keep things this way  
Long as we promise we'll try  
Long as we promise we'll stay
