

Safe Zone

Ashlee Simpson

I keep an open window
Worship your body's temple
It's life
You crawl into my veins slow
A high that makes my blood flow
So high, so high, so high

Ooh, the taste of your loving
Your body's all mine, all mine, baby
When it's going down, I won't drown
When we're mouth-to-mouth
I'll save your life, baby, alright
Like a bird, you set me free
You're the medicine I need, I'm alive
When we're down on our knees, it's give and receive
We're alive
Ohh, ohh, babe

You walk into my safe zone
Until our colors explode
Red light
Supernatural chemicals
Sparkin' flames until we lose our minds
Our minds, our minds

Ooh, the taste of your loving
Your body's all mine, all mine, baby
When it's going down, I won't drown
When we're mouth-to-mouth
I'll save your life, baby
Like a bird, you set me free
You're the medicine I need, I'm alive
When we're down on our knees, it's give and receive
We're alive
Ohh, ohh, babe

Like a bird, you set me free
You're the medicine I need, I'm alive
When we're down on our knees, it's give and receive
We're alive
Ohh, ohh, babe
