

## moving on with grace

Ashley Cooke

He's moving on with a boxed brunette that he met at his new church  
Went to find God found Grace instead  
Said he felt like he knew her  
In another life  
And now he's got another life

Well, I've been seeing someone myself  
A good ole boy from Tennessee  
Ain't nothing special he ain't top shelf  
But he spends all night loving on me

Yeah my old flame got a new flame  
Guess I'm doing the same thing  
He's got her at his place  
I've got mine in a glass  
He's moving on with grace  
I'm moving on with Jack

His Friday nights are on the couch sittin' flipping through a roku  
And I'm on a bar stool makin' out with my new old go to  
Kinda wondering  
If he's been wondering

If I've been seeing someone myself  
A good ole boy from Tennessee  
Ain't nothing special he ain't top shelf  
But he spends all night loving on me

Yeah my old flame got a new flame  
Guess I'm doing the same thing  
He's got her at his place  
I've got mine in a glass  
He's moving on with grace  
I'm moving on with Jack  
...Daniel's got a handle on me  
I know it's just a bottle but at least I ain't lonely

I've been seeing someone myself  
A good ole boy from Tennessee  
Nothing special he ain't top shelf  
But he spends all night loving on me

Yeah my old flame got a new flame  
Guess I'm doing the same thing  
He's got her at his place  
I've got mine in a glass  
He's moving on with grace  
I'm moving on with Jack

I'm moving on with Jack  
Like a lynchburg train running off the tracks  
He's moving on with Grace  
I'm moving on with Jack
