

I was under the impression  
This drink would get me gone, not second guessin'  
But here I am, last call again, still askin' questions  
I don't know the answer to  
It's like I'm stuck in that rear view  
Ain't my fault, I've done all they say to do

I got drunk under the neon lights  
Slung dirt up under 35s  
To go and be there underneath them  
Sheets with someone new  
Swept the hurt under the rug  
Done everything under the sun  
So I don't understand  
Baby, why I can't get over you  
No, I don't understand  
Baby, why I can't

Outrun a memory  
Foggin' up the glass at the Loxahatchee levy  
'Cause now I'm wishin' on stars like a water fountain penny  
I could either get you back or just forget about what we had  
'Cause right here in-between is killin' me

Yeah, I got drunk under the neon lights  
Slung dirt up under 35s  
To go and be there underneath them  
Sheets with someone new  
Swept the hurt under the rug  
Done everything under the sun  
So I don't understand  
Baby, why I can't get over you  
Oh, I can't get over you

Yeah, I underestimated just how hard it was gonna be  
Gettin' over you gettin' over me

I got drunk under the neon lights  
Slung dirt up under 35s  
To go and be there underneath them  
Sheets with someone new  
Swept the hurt under the rug  
Done everything under the sun  
So I don't understand  
Baby, why I can't get over you  
Oh, no, I don't understand  
Baby, why I can't get over you
