

Don't It Feel Good

Ashley Gearing

For so long baby
We've been walking on a tightrope
Afraid of falling down
We'll I get so tired of this
Living life in limbo
Maybe it's time to hit the ground
Oh baby can't you see
All that really matters
Is that we don't stop at the edge
The only way to be happy after
Is when we get out of our heads

(Chorus)

Don't it feel good
To let yourself go
Don't it feel nice
From your head to your toes
Don't it feel good
To set yourself free
Don't it feel right
When love is the key
Don't it feel good baby

Ah yeah

I really love it
When you wrap your arms around me
And tell me everything's alright
It's so much better
Than I ever thought it could be

Babe the words just can't describe

Ooh caught up in the moment

Hypnotized by your kiss

Hey your love really stalls me

And I can't resist

(Repeat Chorus)

Ah come on

Don't it feel good to let your heart be free

And don't it feel good when you got the room to breathe

Don't it feel nice to take it in and let it out

Don't it feel good? That's what it's all about

Ooh caught up in the moment

Hypnotized by your kiss

Hey your love really stalls me

And I can't resist

(Repeat Chorus 2x)

Oh don't it feel good

Don't it feel good
