

# Lindeville

Ashley McBryde

The dogs are howlin' at the moon tonight  
The breeze is blowin' through the trees just right  
And I'm way up here with the whippoorwills  
And there's nothing but stars over Lindeville  
There's nothing but stars over Lindeville

Betty had just one glass of wine  
She's alright, but just feeling fine  
And Patti fell asleep without her pills  
There's nothing but stars over Lindeville  
There's nothing but stars over Lindeville

Leroy and Patience layin' down for rest  
Her little brown face layin' on his chest  
He misses Caroline, he always will  
Cause there's one more star over Lindeville  
There's one more star over Lindeville

And I've seen parades  
And I've seen fire  
Watching over this ole town  
Like a bird on a wire

I've been keeping time on the courthouse square  
Since their Daddy's Daddy's put me here  
And tonight I wish I could just stand still  
Cause look at those stars over Lindeville  
There's nothing but stars over Lindeville
