

Closer

Ashley Monroe

Hit me like a high school high
I know you know that feeling
Lost in space, slow motion
When you say my name
I know I don't stand a chance against the fire between us
And if I were to give in
The whole thing would go up in flames

Come closer
You've got me
Move slower
Don't stop me

Take me to the top of the world
And leave me there pieces
Turn me up, turn me into anything you please

Come closer
Oh, you've got me
Move slower
Don't stop me
Breathe deeper
Keep my heart beating
Come closer
You know that I need it

I've been losing touch
I've been losing sleep
The days drag on and on
When you're not here with me
So come closer

Come closer
Oh, you've got me
Move slower
Don't stop me
Breathe deeper
Keep my heart beating
Come closer
You know that I need it
Come closer
You know that I need it
Come closer
