

# Drive

Ashley Monroe

I know you like the way I ride  
You roll the windows down and fly  
We'll let the whole world pass us by  
Disappear like headlights in the night

Drive me like your classic  
You just have to have it  
Feels so good to have your hands on the wheel  
Drive me like your classic  
You just have to have it

Just like the horses running wild  
We'll keep rolling out in style  
I could go for miles and miles  
You hold the key to paradise

Drive me like your classic  
You just have to have it  
Feels so good to have your hands on the wheel  
Drive me like your classic  
You just have to have it

Drive me like your classic  
You just have to have it  
Feels so good to have your hands on the wheel  
Drive me like your classic  
You just have to have it
