

Everything I Wanted

Ashley Monroe

Waking up with you makes me feel alive. (oh)
And every kiss you give still takes me by surprise
So I thought that I would tell the world today
My life has changed so ill say...

You are not a stranger. You're not just friend
You are not just lover who is sleeping in my bed
You are what I came for, always thinking of
you are everything I wanted and love

You wash me with you eyes
You give me all your time
Someone I cant forget and I always dreamed Id find
So I thought id tell the world today
All because of you ill never be the same

So many times I told you so
I guess I wanted you to know.

Wanted and love
