

Moth

Ashley Monroe

Five or six months go by, gettin' over you
Think I'm doing it right (Think I'm doing it right)
When I'm drinking with friends in some dark dive bar
I hear your name and there you are
It's like somebody turned on a light (Turned on a light)

Something 'bout you must be worth the pain
I go and let you burn me anyway
Moth to a flame

We make our way across the room
Couldn't stop if we wanted to
And we don't want to
Before we even have time to think
I'm all over you
You're all over me

Oh, something 'bout you must be worth the pain
I go and let you burn me anyway
Moth to a flame

Old habits are hard to break
Hard to break
My favorite bad decision
Gets me every time
My heart has tunnel vision
I fly right in to the fire

Something 'bout you must be worth the pain
I go and let you burn me anyway
Moth to a flame

Old habits are hard to break
Hard to break
Old habits are hard to break
Old habits are hard to break
Hard to break
