

Over Everything

Ashley Monroe

Damn you robin
I wish I too could fly
Leave here with the wind
Today's like yesterday
Tomorrow's just the same
The way it's always been

One of these nights while I'm sleeping
I'll get to wake up in my dreams
I'll be free from the weight that's on my shoulders
Learning how to use my wings
To get over everything

A thousand miles away
Long gone without a trace
You can't hurt me anymore
This old town is killing me
Every turn's a dead end street
Wolves are knocking at my door

One of these nights while I'm sleeping
I'll get to take up in my dreams
I'll be free from the weight that's on my shoulders
Learning how to use my wings
To get over everything

One of these nights while I'm sleeping
I'll get to wake up in my dreams
I'll be free from the weight that's on my shoulders
Learning how to use my wings
To get over everything
To get over everything
