

Risen Road

Ashley Monroe

Come on down to risen road
Heed the warnings you've been told
Let the devil heal your soul
Come on down to risen road

Come on back to where you're from
You've been running but it's in your blood
Pray to Father, pray to the Son
Lord not mine Thy will be done

You can read the Bible
Quote it verse for verse
You can steal a pain pill
Out of mama's purse and get a little high

On risen road
On risen road
Get a little high
On risen road

Oh the risen road is paved in gold
The milk and honey overflow
It's where the saints and the sinners go
Come on home to risen road

You can seek forgiveness
So you can be reborn
You can raid the stash that's hid
In daddy's dresser drawer
And get a little high

On risen road
On risen road
Get a little high on risen road

Come on home to risen road
Come on home to risen road
Come on home to risen road
