

# Silk

Ashley Monroe

Soaking it up  
Glorious light  
Heaven has sent  
Takin' our time  
Makin' it work  
Workin' on it

You are the silk and the honey  
Cool as a mornin' river runnin'  
Ever, flowin'  
Yellow (Glowin')

And something tells me to  
Hold on to you  
And something tells me to  
Hold on to you

I wanna sleep  
I wanna dream  
Head on your chest  
Carving through time  
Paths that unwind  
Lines that connect

You are the silk and honey  
Cool as a mornin' river runnin'  
Waves, rollin'  
Crystal (Golden)

And something tells me to  
Hold on to you  
And something tells me to  
Hold on to you

It's so close that  
I can feel it  
Softly kiss  
Against my skin  
It's so real that  
I can see it  
Breakin' through  
God I hope this never ends  
This never ends

And something tells me to  
Hold on to you  
And something tells me to  
Hold on to you

And something tells me to  
Hold on to you  
And something tells me to  
Hold on to you
