

Siren

Ashley Monroe

What would you do if I whispered to you
Hey, let's go home
Forget everything we said we wouldn't do
Leave it alone

While you're falling
Under my spell
Let me do the talking
You make it look good
You make it look so good

There's nowhere else that you would rather be
I'm what you want
I'm what you know you need
We've the kind that just goes on and on
And on and on and on
Lalala Lalala Lalala
Lalala Lalala Lalala

What would you do if I slept in your arms?
Lost in a dream
Pulling you in with the siren song
Forever it sings

Can't you see it
A little white house and a wildflower garden
Make it look good
We'll make it look so good

There's nowhere else that you would rather be
I'm what you want
I'm what you know you need
You've the kind that just goes on and on
And on and on and on
Lalala Lalala Lalala
Lalala Lalala Lalala

And I'll keep haunting you baby until you see that I'm the one
Who turns you on, makes you crazy
Yeah, the best is yet to come
You know that I, can do you right
Dance in the light
Yea I'll keep haunting you baby until you see that I'm the one
Who turns you on, makes you crazy
Yeah, the best is yet to come
You know that I, can do you right
Dance in the light with me

There's nowhere else that you would rather be
I'm what you want
I'm what you know you need
We've the kind that just goes on and on
And on and on and on
Lalala Lalala Lalala
Lalala Lalala Lalala
